

Special Features

- 12 COVER STORY:** This is surely a whopper test — Kenwood's TM-221, TM-421, TM-721 and RC-10 are all put under the microscope in ARA's biggest ever equipment review. By Chris Edmondson, VK3YID.
- 20 THEORY:** Another look at how it all works, by Les Jenkins, VK3ZBJ.
- 22 CHEAP EATS:** (Or radio accessories from the supermarket.) A gourmet's guide to inexpensive yet indispensable shack aids. By Ray Fry, VK2FRY.
- 24 BUILDING BLACK BOXES:** Here's some step-by-step instructions on home-brewing really professional-looking equipment cabinets from Mervyn Eunson, VK4SO.
- 28 VARIABLE AC TRANSFORMER:** A really simple way to produce stable AC voltages in increments. Another bright idea from Mervyn Eunson, VK4SO.
- 33 LIFT-OUT READER SURVEY:** What do you **really** think? The ARA lift-out may help us all find out... and you could win valuable equipment for taking part!
- 42 USER REPORT — THE BLACK CTW ANTENNA:** A look at an almost unbelievable Australian invention. By Trevor Boyd, VK4ARB.
- 44 SATELLITES:** Find out where all the signals are hidden — and how to receive them. Another report from Steve Gregory, VK3OT.
- 48 SATELLITE DISH AIMER:** It's not much fun knowing what you can hear — but not knowing where you should point the dish to hear it. Here's the answer from Steve Gregory, VK3OT.
- 52 ISSUES:** A triple-bunger whinge from Tom Moffat, VK7TM.

Cover: Ever dreamed of having a station like this? VK2KE is the Kenwood Electronics Australia club callsign... **Right:** Kolm wants to compile our survey results. Should we let him loose on them?
