This month's cover
Summer is traditionally the season for VHF, UHF and
microwave operations, with increased likelihood
of enhanced propagation. Some prepare for the
season by getting out for a fun day of checking
the gear before the contest season commences.
Our cover shows the set-up at VK40E/2 during the
recent Microwave Activity Day in SE Queensland.
Antennas for all microwave bands from 1.2 to 24
GHz are visible. Photo by Doug Friend VK40E.

Back issues

Back issues are available directly from the WIA National Office
(until stocks are exhausted), at \$8.00 each (including postage
within Australia) to members.

Photostat copies

If back issues are unavailable, photocopies of articles are
available to members at \$2.50 each (plus an additional \$2 for
each additional issue in which the article appears).
