

amateur radio action

Volume 11, Issue 10

On Sale: 24 January 1989

Special Features

- 12** **REVIEW — YAESU FT-736R:** The word 'big' takes on a new meaning with the latest all-everything VHF/UHF base rig from Japan. Neil Duncan and Chris Edmondson report.
- 20** **THE G4ZU 'V5' — PART 2:** Dick Bird continues the story of his latest world-beating antenna design.
- 32** **IMPROVE YOUR SB-101:** Here's a series of improvements for the elderly, but still popular, Heath SB-701, written by Tom Dineen, VK2SV.
- 36** **REVIEW — DSE TRANSMITTING DISCONE:** What better way to test a rig than with an antenna? Neil Duncan, VK3AVK, discusses the affordable GDX-1 discone from Dick Smith Electronics.
- 38** **REVIEW — REALISTIC PRO-2004 SCANNER:** A Tandy by any other name, with surprising performance from 25 to 1300 MHz.
- 42** **HAM SHOPPING IN SINGAPORE:** Tom King, VK2ATJ, reckons the bargains are ripe for the picking...
- 45** **ARA PROFILE — SAMUEL MORSE:** The life story of the guy who made it possible... without ever sitting a Morse test. By Ken Bull, VK3NJ.
- 49** **ONE MAN'S JOHN MOYLE FIELD DAY:** Lots and lots of beer — *that's* John Kolm's way of approaching field day operation...
- 62** **BOOK REVIEW:** A brief glance through the pages of the 1989 ARRL Handbook.

Regular Features

- 62—CLASSIFIEDS:** More red-hot DEAL\$!
- 65—SUBSCRIBE:** Here's how ..
- 66—ADVERTISERS' INDEX**

Cover (top): If towering performance is what you're after get the FT-736R from Yaesu. It won't wash dishes, but it'll do most everything else... **(lower):** Here's a surprise package with heaps of change from \$800. The Realistic PRO-2004 acquits itself well. **Right:** Kolm likes taking the mickey out of people who do silly things, right? Well, it's *his* turn this time. Turn to page 49 for the story...

APOLOGY: Due to unforeseen circumstances, the story 'Packet — a quick 'how to' guide' has had to be held over until the next issue.
